

Consumables

Introduction

Comware carries in stock a wide range of blank labels, tags, receipt paper, ribbons to suit most label & receipt printers, as well as some inkjet and laser printers. For items not in kept in stock, we can usually get them in within 1 or 2 days. We also make to order special sizes or coloured labels

Self-adhesive Labels and Tags

Blank Labels

Comware stocks dozens of different sizes of thermal direct (no ribbon needed) & thermal transfer (needs ribbon) self-adhesive labels on rolls to suit most brands of label printers.

Made to Order

Special sizes, face-stock materials or adhesives can be made to order.

We offer an enormous selection of paper & synthetic materials & as well as adhesives that work across a wide range of applications.

Coatings range from UV and weather resistant to high gloss; materials include paper & various synthetics. There are also thousands of different dies available with variations in cuts, perforations, multi-label formats.

Over-printing

We can preprint your company logo, graphics and fixed text in any colour, to enhance your corporate image and presentation, but still keep your overall label and tag stocks down by being able to overprint your custom data (eg barcodes, nutrition panels, serial numbers, etc. as you need them.

Prime Labels

Have your ready-to use labels custom made.

Again, any material, adhesive, colour—you supply the artwork or let us have our art department design your new labels.

Pre-printing

Let us print your barcode labels for you.

We have several high volume roll label printers that we can print asset barcode labels, product labels, file labels, library labels etc.

Receipt and Docket Paper

Plain Paper

We stock a wide range of plain receipt paper in sizes to fit any dot-matrix receipt and docket printers.

2-Ply Paper

Receipt paper is also available in carbon-less 2 & 3 ply rolls.

Thermal

We also stock a wide range of white & coloured thermal receipt paper in sizes to fit any thermal direct receipt and docket printers.

Made to Order

Improve your image by having your logo & other text printed on your receipts.

Ribbons

Thermal

Whether it's on rough or smooth paper, textiles, plastic cards or plastic labels, **Comware** has just the right Thermal Transfer Ribbon for every substrate. They are very resistant to pressure, have excellent coverage and are compatible with all common types of printers. The formulations are free of heavy metals and are highly resistant to scratching, rubbing and extremes of temperature.

Coloured

Our extremely clear Thermal Transfer colors are durable and long-lasting. Their coverage is excellent and they are suitable for virtually any printer.

Receipt

Comware has a wide range of Ribbon Cartridges to suit most dot-matrix Receipt and Docket printers.
